

## Workshop Packing Checklist

For your convenience, we have assembled the following Workshop Packing Checklist. Please feel free to use this checklist as a guide for determining what things you might want to consider bringing to a future workshop, as well as a pre-trip packing checklist.

As we hold workshops in a variety of locations, climates, conditions and seasonal weather influences, we have endeavored to build a checklist that is as all inclusive. Within major sections of the checklist, you will find sub-sections that are specific to certain conditions that a workshop participant might encounter.

## Technical Clothing
